

# The Leatherman Difference

## Knife Blade

Leatherman insists on premium materials and precise engineering, so our blades don't just look great—they work great, too.

## Bit Driver

Customize your Leatherman knife for the job at hand.

## Bit Holder

Ever need more than one screwdriver? Thought so. Carry a total of six screwdriver tips with the help of our Bit Holder, integrated into the handle.

## Carabiner | Bottle Opener

A single feature with multiple uses—pretty much what the world has come to expect from Leatherman.

## Blade Launcher

Human powered! A safe, quick and spring-free way to access the knife blade.

## Handles

Sure, they look great, but they're built for comfort, and they're made to last, using materials like aluminum, steel and glass-reinforced nylon.

## Leatherman®

For years, the Leatherman name has meant preparedness. With the backing of expert engineering, people who carry genuine Leatherman tools are ready to take on most any task or emergency. Now Tim Leatherman's company is applying its unbeatable brand of versatility and innovation to folding knives, and the results are stunning. These knives introduce new thinking to the category, adding usefulness, saving space and providing excellent value. Whether for everyday living or a backcountry adventure, Leatherman folding knives offer new and better ways to help you answer the question: Are you ready?

Leatherman. Now you're ready.®

## Customer Support

Leatherman's expertise doesn't end with knives and multi-tools. We also offer the best combination of services. Competitive pricing, prompt delivery and excellent customer service show our dedication and commitment to you.

## 25-Year Warranty

## BLADE LAUNCHER

No springs required. A little Leatherman ingenuity and the flick of a finger are all that are needed to put the knife blade to work. Teflon washers help make the action smooth and easy, and the finger tab disappears into the handle once the blade is deployed. Nothing else on the market operates this simply or this well. (Available on 300-series models.)

## CARABINER

Our patent-pending carabiner stays hidden until you need it, nesting with other components to save space. Then a simple thumb action is all that is required to hang your Leatherman knife on a backpack, rope or belt loop. Plus, it locks in place so attachment is easy.

## BOTTLE OPENER

Thirsty? With the help of your Leatherman knife, you're ready for that, too! Our carabiner clip is also designed to be the best bottle cap lifter we've ever offered. And since it easily rotates or slides out with one hand, you won't have to wait long to enjoy your reward for a day's work well done.
